Education

Tufts University, MA, USA Master of Science in Data Analytics GPA: 3.96/4.00	Sep 2022 – May 2024
National Institute of Technology Warangal, India B.Tech in Mechanical Engineering	Aug 2016 – Aug 2020

Experience

Paragon Corporation, MA, USA Database Programmer	Jan 2024 – Present
<ul style="list-style-type: none">Developing and maintaining databases supporting the clients' operations.	
Data Analytics Department, Tufts University, MA, USA Graduate Teaching Assistant	Sep 2023 – Present
<ul style="list-style-type: none">Teaching labs, conducting office hours, and supporting course logistics for DATA 200 (Foundations of Data Analytics) and DATA100 (Introduction to Data Analytics) courses.	
JPMorgan Chase & Co., DE, USA AI & Data Science Summer Associate, CCB Risk Modeling	Jun 2023 – Sep 2023
<ul style="list-style-type: none">Researched the significance of more than one personal guarantor's information for deciding on the approval/denial of a small business credit application to improve customer experience.Developed two XGBoost classifiers using PySpark on AWS Cloud, compared the models' performance, and recommended not collecting additional guarantors' information for applications with less than \$250k exposure.	
Data Analytics Department, Tufts University, MA, USA Graduate Research Assistant	Jan 2023 – Apr 2023
<ul style="list-style-type: none">Contributed to making D'Arcy Thompson's Glossary of Greek Birds accessible to the general audience using automated tagging and natural language processing techniques.	
Citigroup, India Tech Program Application Developer – 1, PBWM Technology	Aug 2020 – Jul 2022
<ul style="list-style-type: none">Developed and maintained back-end systems for processing loans originating from Citibank's US markets.Developed an automated system to transform text reports generated to Interactive Dashboards using VBA.	
Language Technologies Research Center, IIIT Hyderabad, India Research Intern	May 2019 – Jul 2019
<ul style="list-style-type: none">Implemented a Seq2Seq model with a reward function in Python for sentence simplification, which helped reduce the model's validation perplexity by 16% compared to the state-of-the-art model.	
Reliance Jio Infocomm Limited, India Machine Learning Intern, Jio Coverage Platform	May 2018 – Jul 2018
<ul style="list-style-type: none">Improved the search experience of an internal platform, Foresight, used to monitor and fix network coverage issues. Improvements included building a recommendation system using NLP algorithms in R.	
SPI Cinemas Private Limited, India Data Science Intern, Human Resources	Nov 2017 – Dec 2017
<ul style="list-style-type: none">Analyzed the data of the frontline staff and implemented a classification model (with 87% accuracy) in Python to predict the likelihood of an employee leaving within the first three months of joining.	

Projects

Relationship between air pollution and walkability in Greater Boston Region [Repository]
<ul style="list-style-type: none">Visualized the exposure to air pollution and walkability in the Greater Boston Region, implemented spatial regression models to study the relationship between these two variables, and found a positive correlation between them.
Database system to manage the payroll system at Tufts Dining [Repository]
<ul style="list-style-type: none">Designed a database system and developed a user guide to manage the database. The user guide contains queries to add data and the most frequent scenarios for updating, deleting, and viewing the data in different forms.
Gentrification study of New York and Los Angeles metropolitan areas [Repository]
<ul style="list-style-type: none">Implemented classification algorithms with SMOTE techniques (to handle imbalanced data) to predict the likelihood of a census tract getting gentrified between 2000 and 2010 using the Neighborhood Change Database.

Technical Skills

Programming Languages: Python, R, SQL, MATLAB, Visual Basic for Applications (VBA), C++
Tools: GCP, AWS SageMaker & EMR, Tableau, R Shiny, Elasticsearch, Kibana, Kepler.gl, Linux, Git, Jira, Excel, PowerPoint
Libraries: NumPy, Pandas, Matplotlib, Scikit-Learn, PySpark, GeoPandas, PySAL, PyTorch, TensorFlow, ggplot
